

Before installing Cerenade software into Windows Vista, please follow these instructions to allow the installation to go through properly.

Step 1 Click **Start** and then click **Control Panel**.

Step 2 Make sure small dot is on left side of Control Panel Home. If it is to the left of Classic View, click on Control Panel Home. Then click on **User Accounts** on right side.

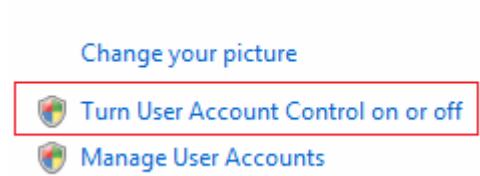

Note: If you accidentally clicked on **Change account type**, close the window that open up and click on **Change account type**.

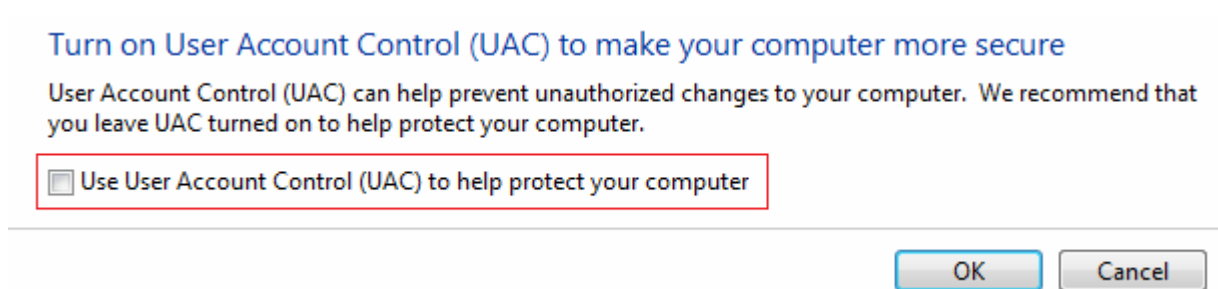

Step 3 Click again on **User Accounts** on the window that opens up.

- Step 4 Click option **Turn User Account Control on or off**.
Make changes to your user account

- Step 5 Uncheck box that reads **Use User Account Control to help protect your computer** and click **OK**.

- Step 6 You will be prompted with **restart** window. You need to restart it to activate this change.
