HOW TO CLEAR YOUR BROWSER CACHE

Google Chrome

1. Open the settings on Chrome. Click the menu icon in the upper right corner of the browser to the right. Click settings on the bottom of the menu.
   a. A faster way to get there is to press Control+Shift+Delete on a PC, or Shift+Command+Delete on a Mac.

2. From settings, click "Show advanced settings..." It's located at the very bottom of the settings section.
3. Scroll to the privacy section and click "Clear browsing data".

4. Select "Empty the cache". Uncheck all other options to avoid deleting browser history, cookies and other things you may wish to retain. Change "Obliterate the following items from" to "the beginning of time". Press "Clear browsing data".
Mozilla Firefox

1. Go to "Clear Recent History":
   - On a PC, click the "Firefox" menu in the top left corner. Next, select the right arrow next to "History >", and click "Clear Recent history".
   - Or press Ctrl+Shift+Delete to open the recent history window.
   - On a Mac, from the Tools menu, select "Clear Recent History..."
   - Alternately, you can press Shift-Command-Delete.

2. Make sure "Details" is expanded, then select "Cache" from the list. Uncheck everything else.
3. In the "Time Range to Clear" drop down, select "Everything".

4. Select "Clear Now". Your computer will work for a moment, and the process will be complete. You've successfully cleared Firefox's Cache!
Safari for iOS, iPhone, and iPad.
Safari for Mac OS X

1. Once your browser is open, click the Safari menu and select Empty Cache...

3. Click "Clear Cookies and Data." A popup box will appear. Click "Clear Cookies and Data" again to confirm your choice.
Internet Explorer 9
1. Once your browser is open, click the gear icon at the top right to open the Settings menu. Then, select Safety and Delete Browsing History....
   a. Or, alternately, you may simply press Ctrl+Shift+Delete to open the Delete Browsing History window.
2. Select Temporary Internet Files. You will also need to uncheck all of the other boxes, especially Preserve Favorites website data. This option makes the window also delete objects from websites in your Favorites folder, which is necessary to completely clear your cache.
3. Click the Delete button near the bottom of the window to perform the operations (i.e. clear your cache by deleting temporary files).
4. Your computer will work for a moment, and then the process will be complete. You've successfully cleared Internet Explorer 9's Cache!

Internet Explorer 8
1. Once your browser is open, click the Tools menu and select Internet Options.
2. Be sure the General tab is selected.
3. Under "Browsing history", click "Delete..."
4. In the new window, be sure the Temporary Internet Files box is checked. You can uncheck everything else you don't want to delete.
5. Click Delete.

Internet Explorer 7
1. Once your browser is open, click the **Tools** menu and select **Internet Options**.
2. Make sure the **General** tab is selected.
3. Under "Browsing History", click "Delete…"
4. In the new window, click **Delete Files** in the **Temporary Internet Files** section. If you want, you can also opt to delete cookies and browsing history.
5. If you want to delete all files, click **Delete all…** then click **Ok** to confirm.

**Internet Explorer 6**

1. Once your browser is open, click the **Tools** menu and select **Internet Options**.
2. Make sure the **General** tab is selected.
3. Click **Delete Files** in the **Temporary Internet Files** section and click **OK**.
