

ENTERPRISE SERVER

Take your Forms with you

When is the next time you need to file a Leave of Absence, Travel Request, Travel & Expense Report or Financial Disclosure Report? Who knows. But Cerenade Enterprise Server is the ONLY Forms Management solution that helps you find, complete and submit your e-form when you need it via your iPad and other tablets.

Most Forms Management Solutions Do Not Run on iPad

Unlike Cerenade Enterprise Server, most Forms Management solutions utilize client-centric technologies like Adobe PDF, Flash, or InfoPath to view and edit e-forms. These technologies are not supported on iPad.

Introducing Enterprise Server - Next Generation

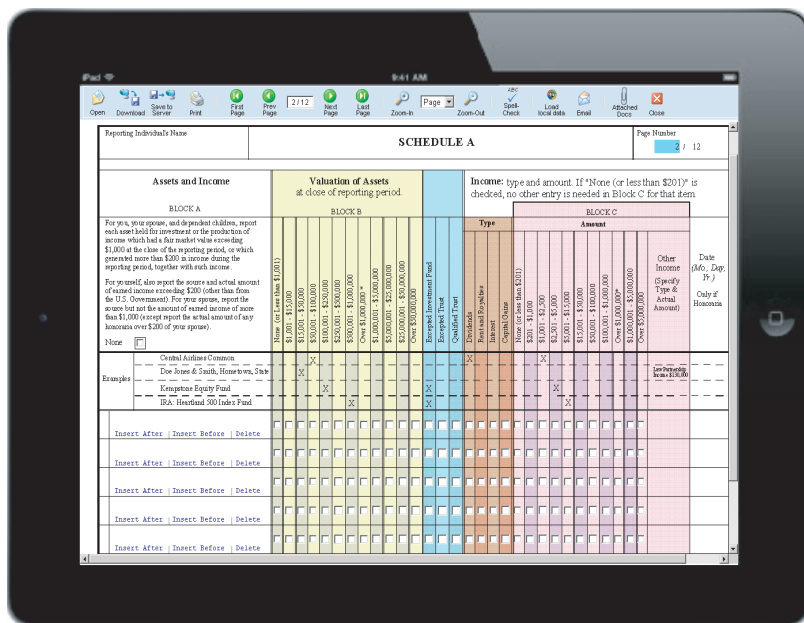

Cerenade Enterprise Server is designed to work on all platforms, including iPad and other Tablets. In fact, Enterprise Server - Next Generation is the ONLY Forms Management solution that is platform and browser independent.

Benefits of Enterprise Server

- Supports PC, Mac, Unix, Tablet PCs and iPad
- Requires ONLY a browser. No Java, No Plug-ins. No Apps. Pure HTML
- Supports WYSIWYG as well as Wizard-driven e-forms
- Supports NT-domain and PKI-based digital signature
- Supports 2-D barcode
- Supports single Sign-on
- Supports Workflow-enabled e-forms
- Manages blank and completed e-forms; pre-fills e-forms from AD or external data sources; Archives e-forms; extracts data from e-forms and populates external data sources and Routes & Tracks e-forms
- Supports Dynamic/Scrollable Tables
- Is Accessible
- Is configurable via Administrative Console
- Imports Fillable PDF, FormFlow, OmniForm and Shana files
- Manages your library of e-forms and all their revisions via a single central repository
